GLO-RAY® HEATED GLASS MERCHANDISING WARMERS

Models GR3SDH-27, -33, -39 GR3SDH-27D, -33D, -39D
GR3SDS-27, -33, -39 GR3SDS-27D, -33D, -39D

For self-serve operations, the Hatco Glo-Ray Heated Glass Merchandising Warmers increase holding capacities and impulse sales. Featuring Hatco's patented heated glass shelves, product is placed at customers' fingertips, while allowing them to view all their choices at once. Designed specifically to hold hot wrapped or boxed product at proper serving temperatures, the addition of a top shelf used to display short term held food for which serving temperature is not critical, provides extra capacity while using the same amount of counterspace.

The transparent shelf utilizes a patented heated glass, which radiates heat down while conducting heat up, allowing you to hold foods longer and safer at optimum serving temperatures.

FLEXIBILITY
Available with slant or horizontal shelves, the Glo-Ray Heated Glass Merchandisers are offered in three widths of 27¼", 33¼", and 39¼" (692, 845, and 997 mm), with single or dual shelves.

The patented heated glass shelf provides an even heat source for top and bottom heat to safely hold product, along with superior visibility to promote and display product.

Options and accessories include stainless steel or *Designer* color units, *Designer* color posts, *Designer* color base panels, sign holder for top and middle shelves, flip up doors, and 4" (102 mm) legs.

QUALITY
The following features assure the finest performance for years to come.

- The patented heated glass shelf provides an even heat source for top and bottom heat to safely hold product.
- High visibility self-serve merchandiser.
- These merchandisers feature a thermostatically-controlled, hardcoated heated base and a cord and plug.
- All models are shipped with 2½" (64 mm) adjustable legs and factory attached 6' (1829 mm) cord and plug.
