

Hanging Safety Sign

Problem.

Provides ample advance warning of potentially dangerous area.

Forewarns pedestrians of hidden hazards.

Solution.

Rubbermaid[®]
Commercial Products

Rubbermaid® Hanging Safety Sign demonstrates your dedication to an accident-free environment.

Slipping, tripping, and falling are among the leading causes of injury and accidental death in commercial environments. Business owners suffer loss of reputation and spend billions of dollars yearly in workers compensation and litigation. The Rubbermaid® Hanging Safety Sign is essential to safety programs focused on preventing personal injury. This multi-lingual, highly-visible sign clearly and boldly cautions pedestrians before they approach the hazardous area.

The Hanging Safety Sign is quick and easy to hang in stairways, corridors, and other areas where traditional floor signs may be impractical.

The Rubbermaid® Hanging Safety Sign is the perfect tool for helping to create safer environments in which people work and travel.

Flexible locking style hanger helps keep sign in place.

Unique plastic arm allows sign to be placed on doorknobs, stairway and corridor railing brackets as well as other visible locations.

Two-sided design makes sign readable from all directions.

ANSI-compliant multi-lingual caution graphics warn that a hazardous area is near.

Durable plastic construction will not rust, corrode or fade.

Molded in OSHA-required bright yellow for quick pedestrian recognition.

Narrow body for non-obstructive placement in a variety of locations.
