- Keeps Fixtures Flushed and Presentable
- Cost-Effective for High Traffic Washrooms
- World-Class Reliability
- Easy Installation

AutoFlush® Sidemount

The AutoFlush® Sidemount is the perfect solution for automating fixtures in high traffic washrooms. This system ensures that urinals and toilets are always flushed and presentable. The AutoFlush Sidemount promotes good hygiene by eliminating potential points of cross-contamination, while preventing odors by ensuring that fixtures are flushed after every use.

Cost-Effective for High Traffic Washrooms

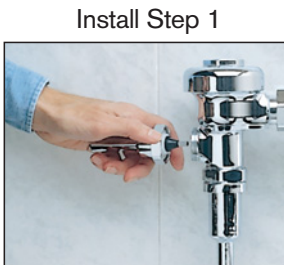

Easily automates manual flush handle in minutes ensuring fixtures remain flushed and presentable, no trailing costs for replacement parts, simply change batteries every 3 plus years or 100,000 flushes. Battery reserve feature allows 9,000 flushes after Low Battery indicator begins to flash.

World-Class Reliability

Smart Object Infrared Technology manages flushing automation like no other system today. The angled lens design combined with sophisticated sensor technology guarantees activation even with the toilet seat raised. With a proven track record, this dependable technology ensures good hygiene for patrons and occupants of your facilities.

Easy Installation

No water shut-off is required to convert your washroom to a higher standard of hygiene. All required tools and batteries are included. No need to replace your current investment of flush valves or move plumbing rough-in to accommodate ADA compliance. Replacing your existing flushing handle with a Touch-Free flushing device makes perfect economic sense.

Install Step 1

Remove Handle

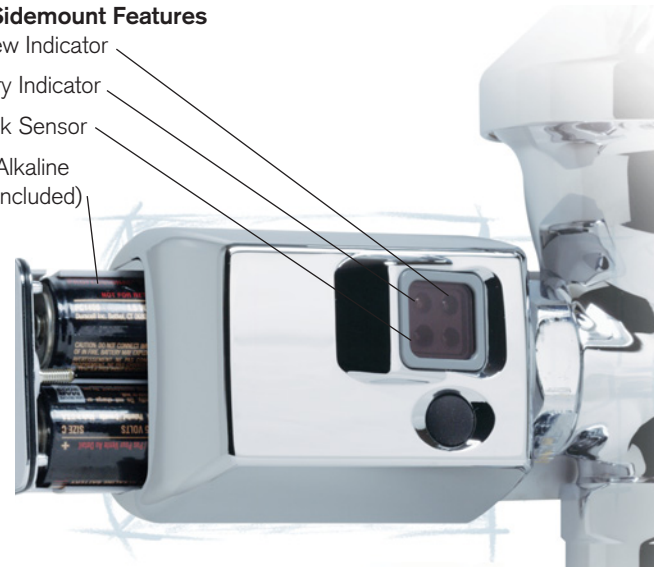

Install Step 2

Install AutoFlush®
