

FPR3

PIZZA OVEN

Doyon's FPR3 is the perfect design and technology for the space and energy cautious users. The rotating perforated nickel plated decks are what makes it unique and stand out from the competition. The perforated nickel plated decks are designed for fast heat accumulation as well as even heat distribution across the decks. The heat provided from the nickel coated perforated deck makes a nice even crust due to the air moving through the perforated holes and from the heat and the metal deck itself. Even though they are famous for baking pizzas, they can also be used to bake and cook multiple products.

VERSATILITY

Bread, Rolls, Buns, Pastries, Cookies, Muffins, Pies, Cakes, Bagels, Croissants, Sourdough, Ryes, Pizza and Proteins

FPR3 + STAND

STANDARD FEATURES

- Rotating Speed Cook Oven
