

# 7E / 7E COMPACT

*Classe 7 is an essential, versatile machine made from tough materials, such as aluminium and steel, so it is very sturdy and reliable.*

*Available in a 2 groups compact version, or with 2 and 3 groups and also in a Tall version.*

Electronic control and automatic dosing for practical preparation with consistent results.

The machine has a hot water dispenser with programmable time-controlled dosing.

Classe 7 has an ergonomic lighting system in the work area to make the barista's job easier plus chrome group covers and all the distinctive stylish accessories from the Rancilio range.
