

Features & Benefits:

- Featuring a coupe shape, ideal for maximizing food plating
- Modern, simple elegance
- Exquisite, Continental WHITE™ color matches perfectly with the other Fine Dining items and Schonwald patterns

With an air of proficient restraint, Fine Dining always creates a cultivated atmosphere as an integral part of an opulent dining table as well as a relaxed five o'clock tea. The simple elegance of this successful range is displayed just as well on a starched tablecloth as it is in rustic sets or when it is in direct contact with the wood of a tabletop.

The discreet classical shapes provide an effective backdrop for culinary delights without ever stealing the limelight themselves. This is quite possibly the most delightful way to spoil one's guests at any time of the day.
