Quickly create vacuum pressure with included pump

Sanitary PlatterCover™ for transporting food from grill

### FEATURES

- Vacuum pressure opens up the pores in meat and when released, the marinade rushes into these open pores; **penetrating deeply and completely in as little as 5 minutes**
  - **Marinate on the way to the grill;** no need to marinate overnight anymore
  - Exclusive **HighTide™** ribbing design lifts meat off the chamber floor to allow marinades to be absorbed through all meat surfaces
  - Low profile design provides large capacity while **eliminating the need to stack multiple pieces of meat**
- Exclusive dual purpose **PlatterCover™** design
  - Securely store raw food / pre-cooked juices & marinade, **eliminating cross contamination potential**
  - Provides an **ideal, sanitary surface** and eliminates the need for multiple platters / trips to the kitchen when transporting food to / from the grill
  - **SpillFree™** rim **eliminates spills when transporting cooked foods**
  - Allows you to **transport foods to remote locations without spilling** (e.g. camping trips)
- 4.5 liter and 2.6 liter sizes can accommodate up to 12 and 6 boneless chicken breasts respectively
- Easily disassembles / reassembles; Dishwasher safe (top rack only)
- Made in the U.S.A.; manufactured of FDA approved materials; No BPA
