

SAF-T-ICE® CART

BENEFITS

HOLDS UP TO 2 SAF-T-ICE® TOTES,
REDUCES RISK OF BACK INJURY
WHILE TRANSPORTING ICE

HANDLE ASSEMBLY COLLAPSES FOR
CONVENIENT STORAGE OPTIONS

LID SECURES REDUCING RISK OF
CROSS-CONTAMINATION

Each year, more than 3 million foodservice employees are injured as the result of a slip-and-fall accident. It is estimated that the foodservice industry spends more than \$2 billion each year for such injuries and is rising by 10% every year. Often, slips and falls that occur are caused by carrying heavier objects across a kitchen.

The dedicated Saf-T-Ice® Cart can transport up to two Saf-T-Ice® totes (carrying 50 lbs. of ice) safely and securely. The Saf-T-Ice® Cart can only be used for ice transport reducing the risk of cross-contamination. San Jamar's quality and durability are evident in the robust design of the Saf-T-Ice® Cart and is a must in busy kitchens. Two models are available for use with the SI6000 (6-gallon tote) or SI6100 (5-gallon tote).
