Modular Holding Cabinet, Full Pan

Models

- 86012 MHC-1F full pan modular holding cabinet

86012

Standard Features

- Conduction heat
- Independent upper and lower heating system
- Cool touch insulation
- Small footprint
- Stainless steel construction
- Digital control
- Programmable menu
- Double handled pan for pass-thru applications
- One year parts and labor warranty

Specifications

Merco Holding Cabinets keeps food hot, fresh and ready for easy assembly! Allows more flexibility in holding options for greater menu variety – go ahead, prepare and hold food prior to serving. Stack the units up to 3 high or line them up side by side. The easy to maintain design and simple operation features reduce employee time spent on cleaning and training; increasing customer satisfaction by providing higher product quality in a shorter amount of time.

Conduction Heat: directly transfers heat from both top and bottom with minimal heat loss. Provides consistent quality, improved freshness and extended hold times.

Cool Touch Insulation: keeps exterior surfaces cool while food is held at proper serving temps.

Small Footprint: each unit holds one full size polycarbonate bin, small footprint allows cabinet to fit almost anywhere.

Modular: stackable up to two high on countertop. Pass-Through Applications - double-handled pans standard

Stainless Steel Construction: sturdy, sanitary and reliable.

Programmable Menu: easy to use symbols on control panel. Digital time and temperature display.

Electrical Requirements: Model is available in 120 Volt; 60 Hz, 1060 Watts at 8.83 Amps. 6' cord and NEMA 5-20P plug included.
