

Indoors or outdoors, in heat or humidity, these sleek new models keep their cool and hold ice cold for days!

They provide reliability and value plus safer holding for ice! The new and unique sliding lid helps reduce the risk

of cross contamination. It slides back and under for quick and easy access and it slides shut for safe and sanitary

storage. Invite them to every event where you can be assured of having fresh, safe ice. See how well they work

side by side with Cambars® and all Cambro catering equipment.

- Polyethylene body with thick foam insulation for optimum durability and long lasting ice storage.
- New recessed easy access drain faucets are on the front of every model for quick draining.
- Well and drain shelf keeps ice out of melted water, ensuring quality and extending holding time.
- Tall units hold ice at a safe and comfortable waist high dispensing level.
- Easy to clean.
- Recessed handle on front end for safe, balanced lifting on or off delivery trucks.
- The new 200 lb. (97 kg.) model offers greater capacity for less frequent replenishment.
- Optional Rear Easy Wheels are oversized and provide easy maneuvering and greater stability with heavy loads.
- Molded-in handles for easy transport from the ice machine to the point of service.
