Features & Benefits

- Durable carts designed to specifically meet the meal delivery needs of hospitals (acute care), long term care and correctional facilities.
- Designed to work with unitized pellet system, heat on demand base system or insulated trays.
- Single stack rail system handles two (2) trays per rail, ten (10) trays per compartment with a 5 1/2" (14 cm) clearance between rails.
- Meal serving capacity per compartment is ten (10) each 15" x 20" (38,1 x 50,8 cm) or 14" x 18" (35,6 x 45,7 cm) fully loaded trays.
- Durable, one-piece, molded polyethylene construction ensures long term durability and reliability. Molded bottom bumpers protect walls and furniture.
- Thick foamed-in place polyurethane insulation provides added structural strength and reduces noise while transporting.
- MDC1520S20 has two (2) lightweight, non-rusting, aluminum louvered vents on the back of the cart for increased air circulation which optimizes food quality.
- Molded-in marine rail top provides an ergonomic work surface and keeps trays secure during service preparation. Marine rail is designed for use during service, not transport.
- Molded-in handles on both ends make it easy to transport and maneuver.
- ABS doors are non-insulated, durable and open out and over side bumper for clear access to the full tray width. These doors are self venting to assist with air circulation.
- Nylon friction latches ensure that doors close securely.
- Self-draining bottom in each compartment facilitates easy cleaning.
- Stainless steel casters:
  MDC1520S20: Four (4) each 6" (15,24 cm) non-marking slightly offset casters, two (2) swivel with brakes and two (2) rigid.
  MDC1418S20: Four (4) each 5" (12,7 cm) non-marking slightly offset casters, two (2) swivel with brakes and two (2) rigid.
- Non electrical.
- No assembly required.
- Available in five (5) colors.
