

S-Series Ultra Pan Carriers®

Top Loading

For GN Food Pans

Models UPCS140, UPCS160, UPCS180

Features & Benefits

- Stylish, economical catering workhorses built to withstand the tough demands of catering! Combining a sleek, contemporary appearance with durable construction and reliable holding performance, they provide an exact fit for a wide variety of GN full and fractional size Food Pans.
- Perfect for transporting hot or cold food to off premise events, corporate parties or delivering food from central kitchens to satellite locations.
- Create a wide variety of service configurations using Cambro's GN full and fractional size Food Pans and 12" (32,5 cm) Divider Bars. Use to create a mini food bar, salad bar or condiment station! For best results, use food pans with maximum depth for each carrier unit.
- No removable gasket! Built-in seal offers excellent temperature retention, easier cleaning and reduced replacement costs.
- For best holding results, pre-heat or pre-chill unit prior to use for 20-30 minutes. Use hot water or ice and keep lid closed. Do not use any flame or electrical sources.
- Polypropylene construction is durable, lightweight and dishwasher safe.
- Foamed-in polyurethane insulation helps to ensure hot and cold foods are held at safe temperatures.
- Self-venting design helps equalize pressure and release steam.
- Four durable nylon latches are rustproof and close tightly to seal in contents.
- Easy to load and unload heavy food pans using molded-in finger notches.
- Molded-in handles on all four sides provide comfortable, easy transporting.
- Unique interlock design on the bottom and top corners insures secure stacking for more efficient transportation and storage. Also stacks with top loading MPC Camcarriers, and UPC Ultra Pan Carriers. Does not stack with UPC100.
- Stack multiple units for easy transporting on CD160 Camdolly.
- Non-electrical.
- No assembly required.
- Available in 5 colors.
