

Comfort Rest Ribbed Foam has an embossed top surface that enhances the mat's slip resistance while providing increased worker fatigue relief. The PVC closed cell foam construction relieves leg and back discomfort while providing a barrier to cold floors. Available in standard (3/8") and heavy-duty (9/16") versions, Comfort Rest Ribbed Foam is intended for applications where basic anti-fatigue relief is required at a low cost.

Application Requirements

Strong anti-fatigue properties, durable
