made to serve you better

**Built to serve as the
"Toughest Bar In Town"!**

FWE's conventional "Professional Series" Mobile Bars are built tough to stand up under years of hard service. The acknowledged favorite of leading Hotels, Clubs and Convention Centers, FWE Mobile Bars increase profits and give any operation a polished look. The sanitary stainless steel work areas and interior make clean-up quick and easy. Built tough to stand up under years of continuous use, our top and bottom, precision welded tubular base frames prevent sagging or twisting.

The sleek black top and the choice laminate exterior finishes are standard with optional laminate selections available to meet your special decor. Custom laminates are also available to enhance or match existing colors at most any establishment.

Back up your bar service with a matching back bar and ice cart, which are perfect companions to any FWE mobile bar. For years of reliable, profitable service, ask for FWE "Professional Series" - the "Toughest Bar in Town".

CONSTRUCTION. Heliarc welded, single unit construction shall consist of welded stainless steel base frame of heavy gauge 1" square stainless steel tubing with extra 10-gauge stainless steel caster corner plate reinforcements.

BODY / TOP MATERIALS. Front and side panels shall be high-pressure, dual-side counter-balanced laminate .75" thick. Full length, heavy gauge stainless steel angles reinforce front corners of body on inside, with high impact edging on outside corners. Work surface shall be constructed of 20-gauge stainless steel. Interior of body shall be lined with 24-gauge stainless steel, bonded to cabinet walls and bottom storage area. Seams shall overlap for greater durability and moisture resistance. Work and splash areas shall be polished stainless steel with easy-to-clean covered corners. Front edge shall have raised marine nosing to retard spills.

CASTERS. Maintenance free polyurethane tire casters in a configuration of two (2) rigid and two (2) swivel with brake. Eight (8) foot models are equipped with six (6) casters: four (4) rigid casters and two (2) swivel with brake.

Casters shall have a reinforced yoke mounted to 10-gauge caster plate. The caster mounting plate shall be secured to a 10-gauge stainless steel reinforcing stress plate via welded in place stainless steel studs. The reinforcing stress plates shall be welded to the heavy gauge tubular frame of the unit.

BUMPERS. Full bumper models shall have solid 1.5" wide continuous wraparound aluminum channel, bolted to frame, with snap-in, non-marking replaceable vinyl cushion. Full perimeter bumper shall be continuous, for added protection, with corner cut-outs to facilitate cleaning.

STORAGE AREA. On six (6) foot models, the glass storage area shall include removable and adjustable stainless steel shelf. On all models, the bottom storage area shall be stainless steel lined.

ICE SINK. Sink shall be one-piece stainless steel with coved corners: 18.5" x 16" x 6.5" deep with shut-off drain valve. Sink shall be undercoated to retard condensation.

BAR ACCESSORIES. Standard equipment shall include 5" deep, heavy gauge stainless steel bottle speed rack extending 3.5" beyond depth dimension of 31.5"; removable without tools.

Optional Accessories:

- Locking bottle speed rack
 Extra stainless steel shelves
 Locking doors for storage areas
 Stainless steel bar gutters
 Protective storage cover
 Floor locks (set of 2)
 All swivel casters
 All swivel with brake casters
 Built-in electric hand sink
 Towel ring
