ADJ SERIES IN-COUNTER ADJUSTABLE CUP DISPENSERS

Dispense-Rite ADJ Series cup dispensers feature quality stainless steel construction. These dispensers utilize an exclusive spring-clip precision adjustment mechanism to accommodate a full range of cup sizes from 4 oz. to 64 oz.

A calibrated compression spring ensures one at a time dispensing in horizontal, angled or vertical mounting positions. The quick-release mounting bracket fully supports the dispenser in horizontal, angled or vertical mounting positions and no additional support is necessary. All models are NSF listed.

The ADJ-1 and ADJ-1.50 are the ideal dispensers for smaller cup sizes and tight spaces. The ADJ-1 is designed to accommodate 4 oz. to 12 oz. paper, plastic or foam cups with rim diameters ranging in size from 2¾”–3½”. The ADJ-1 model requires a small 4” hole cut-out and is ideal for many retrofit applications. The ADJ-1.50 is designed to accommodate 8 oz. to 24 oz. paper, plastic or foam cups with rim diameters ranging in size from 3”–3¾”. The ADJ-1.50 model requires a 4½” hole cut-out and combines dispensing flexibility with space savings.

The ADJ-3 is the ideal dispenser for jumbo size drink cups and deli containers. This unit is designed to accommodate 44 oz. to 64 oz. paper, plastic or foam cups with rim diameters ranging in size from 4½”–5¼”. The ADJ-3 model requires a larger 5¾” hole cut-out.

The ADJ-2 is our most popular cup dispenser. It is a One-Size-Fits-All model that offers maximum dispensing flexibility. This unit is designed to accommodate a variety of 8 oz. to 44 oz. paper, plastic or foam cups with rim diameters ranging in size from 3”–4¾”. This model comes in two under counter lengths: 22” or 19”. The ADJ-2 models require a 5¼” hole cut-out.

* Above models ship with 2 different compression springs “F” & “P”. See chart on page 19 for details.
