

Standard Container

Available in three sizes and with wet blades or ice blades, the Standard container efficiently rolls contents back to the blades for smoother blends, shorter prep times, and improved speed of service in both food and beverage applications.

Durable Materials

Made of shatter-proof polycarbonate and equipped with a hardened stainless-steel blade, Vitamix containers are built to last.

Removable Vented Lid Plug

The vented lid plug releases steam, allowing you to blend hot mixtures. It lifts easily from the lid for adding ingredients while processing.

Improved Efficiency

Every detail of our containers is designed to deliver faster, smoother blends, from the shape of their vortex, to their highly engineered blades.

Three Sizes

Available in 64, 48, and 32-oz. capacities to accommodate your menu and your volume.
