Glasswasher

WARNINGS:

- Plumbing connections must be made by a qualified service company who will comply with all available Federal, State, and Local Health, Plumbing and Safety codes.
- CMA recommends utilizing a water softening system to maintain water hardness measurements of 3.5 gpg (grains per gallon) or less. This will assure maximum results and optimum operation of the dishmachine.

Summary Specifications: Model GL-X

The GL-X glasswasher is a low temperature undercounter dishmachine designed to produce sparkling clean glassware utilizing our unique Hot Water Assurance System. The GL-X is easy to use, fast and efficient, while conserving water, energy and chemicals. Built-in sustainer heater provides continuous 130°F hot water every cycle. The GL-X is constructed entirely of stainless steel and is equipped with an integrated chemical delivery system. The GL-X incorporates a pump purging system that improves results by eliminating soil and chemical carryover during rinse cycle.

Advisory: CMA does NOT endorse "Tankless On-Demand" water heaters for use on CMA Dishmachine products. CMA DOES endorse, and highly recommends, the standard "tank" style water heaters, sized properly to handle each particular facility with their water heating requirements.
