TRUEFLEX®

Easy to install and load, TrueFlex® Gravity Feed Organizers maximize cooler pack-out. A new silicon “slip” agent improves slide performance. The open track design does not restrict air flow or inhibit cabinet pull down. Single glides snap on to our wire shelves; no Tie Downs! Solid side walls, dual front bars and back bar ensure product stability. Just three sizes fit over 30 models.

BENEFITS

- Double front bars and high side walls prevent bottles from tipping. Back bar prevents bottles from leaning against back wall of cooler.
- Single glides offer flexibility to display multiple packages on the same shelf.
- Easy to install. TrueFlex® glides snap on to standard wire shelves, thus making it possible to retrofit older coolers equipped with flat shelves.
- Includes Shelf Retainer Clips that keep shelves from sliding into door. Eliminates zip ties and service calls.
- Enhanced silicon “slip” agent improves gravity feed performance.
- Optimum Air Flow ensures rapid pull down to serving temperature.
- Can be ordered with the cooler and shipped inside the unit for one stop shopping.
- Just 3 TrueFlex® sizes accommodate over 30 TRUE Models!
