TBB-2G-HC-LD

True's refrigerated back bar coolers are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service.

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains cabinet temperatures of 33°F to 38°F (.5°C to 3.3°C) for the best in food preservation.
- Exterior - all stainless steel countertop, heavy duty, wear resistant laminated black vinyl front and sides. Matching black aluminum back.
- Interior - Stainless steel floor with ½” (13 mm) reinforced lip and heavy gauge galvanized steel walls.
- NSF/ANSI Standard 7 compliant for packaged and bottled product.
- Positive seal doors.
- "Low-E", double pane thermal glass door assemblies with extruded aluminum frames. The latest in energy efficient technology.
- LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.
- Entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

† Depth does not include 1½” (29 mm) for door handles and 1” (26 mm) for rear bumpers.
**STANDARD FEATURES**

**DESIGN**
- True's refrigerated back bar coolers are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service.

**REFRIGERATION SYSTEM**
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains cabinet temperatures of 33°F to 38°F (.5°C to 3.3°C) for the best in food preservation.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Condensing unit accessed from behind front grill, slides out for easy cleaning and maintenance.

**CABINET CONSTRUCTION**
- Exterior - heavy duty, wear resistant laminated black vinyl front and sides. Matching black aluminum back. All stainless steel counter top.
- Interior - Stainless steel floor with ½” (13 mm) reinforced lip and heavy gauge galvanized steel walls.
- Door threshold protector prevents damage to cabinet from routine loading of product.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.

**DOORS**
- “Low-E”, double pane thermal glass door assemblies with extruded aluminum frames. The latest in energy efficient technology.
- Each door fitted with 12” (305 mm) long handle.
- Positive seal doors.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.
- Door locks standard.

**SHELVING**
- Four (4) adjustable, heavy duty black PVC coated wire shelves. Two (2) right door shelf dimensions are 31"L x 19 ¾”D (778 mm x 493 mm). Two (2) left door shelf dimensions are 31 ¾”L x 21 ¼”D (807 mm x 540 mm). Four (4) chrome plated shelf clips included per shelf.
- Aluminum shelf support pilasters. Shelves are adjustable on ½” (13 mm) increments.

**LIGHTING**
- LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

**MODEL FEATURES**
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- NSF/ANSI Standard 7 compliant for the storage and/or display of packaged or bottled product.

**ELECTRICAL**
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase - 15 amp dedicated outlet. Cord and plug set included.

**OPTIONAL FEATURES/ACCESSORIES**
- Upcharge and lead times may apply.
- 6” (153 mm) standard legs.
- 6” (153 mm) seismic/flanged legs.
- 2 1/2” (64 mm) diameter castors.
- 4” (102 mm) diameter castors.
- Additional shelves.

---

**WARRANTY**
Three year warranty on all parts and labor and an additional 2 year warranty on compressor. (U.S.A. only)
