Wood Stone

WS-BL-4343-RFG-LR model shown.

HEARTH CAPACITY

	4343	4355	4836
6" pitas:	15	21	9
7" pitas:	12	15	9
9" pitas:	6	8	4
8" pizzas:	8	9–12	8
10" pizzas:	6	9	6
12" pizzas:	4	6	4

For pitas, assuming 90-second cook times, the approximate maximum hourly production capacity can be calculated by multiplying the above numbers by 40.

For pizza, assuming 5-minute cook times, the approximate maximum hourly production capacity can be calculated by multiplying the above numbers by 12. Cook times will also vary depending on "style" of pizza.

3–5 Minute Pizzas

PITA BREAD OVEN DUAL BURNER BISTRO

Job Name

WS-BL-(4343, 4355, 4836)-RFG-LR

Model Item#

The Dual Burner 4343, 4355 and 4836 Bistro ovens feature a door opening 24 inches wide x 7.5 inches high. In the 4343 and 4355 Bistros, the cooking area is 26 inches wide x 34 or 46 inches deep, resulting in a 6- or 8.3-square-foot cooking surface respectively. The cooking area of the 4836 Bistro is 29 inches wide x 26.5 inches deep, resulting in a 5.4-square-foot cooking surface. All models feature a stainless steel mantle at the hearth.

Originally designed as high production flatbread ovens, the Dual Burner Bistros are also well suited for many other stone hearth cooking applications. The ovens feature two powerful, independently adjustable gas-fired radiant burners located on each side of the cooking chamber. Additionally, a burner disable switch allows operation with only one burner, further increasing their flexibility.

A tensioned steel exoskeleton surrounding the hearth and dome perimeters ensures structural integrity and longevity. Wrapped in spun ceramic fiber insulation and requiring only a 1-inch side clearance to combustibles, the monolithic 3-inch thick cast-ceramic hearths and monolithic 3-inch thick domes rest on painted black steel stands. The upper halves of the ovens are enclosed with stainless steel and the lower halves in a black painted finish.

The oven arrives completely assembled. However, using the optional Lifting System, the oven can be partially disassembled to fit through a 32-inch doorway—see the Installation and Operation Manual for details. It is ETL Listed, ready to install and is made in the USA.

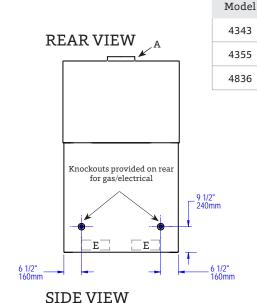

Information about custom finishes, tools and accessories can be found online at: woodstone-corp.com.
