Luigi Bormioli
 A Libbey **FOODSERVICE** Partner

The crystal glass of the company Luigi Bormioli has always been produced with the purest of raw materials, without the use of lead and with advanced technological processes. The crystal glass has exceptionally high levels of transparency, colourlessness, sparkle and high resistance to mechanical shocks and dishwashing. Luigi Bormioli glassware has thin stems with flowing and elegant bowls. The foot is accurately designed to have the appropriate dimension, flat to guarantee better stability and is easy to hold. The glassware also has reinforced rims with the bowls' shapes having a larger surface area to improve oxygenation, curved in at the top to enhance the wines bouquet.

A variety of styles from which to choose, to meet the needs of the most discriminating restaurants and hotels.
