

## EF Series Folding Tables

EF Series Tables are built with a plywood core so that they will withstand years of rough handling. Plywood is light in weight, resistant to corner impact breakage and strong enough to support heavy loads under constant use. We support our table tops with the strongest steel channel frame and the most durable and easy to operate leg components in the industry. EF Series Tables will look good, while performing flawlessly longer than any table you have ever owned.

### Features and Benefits

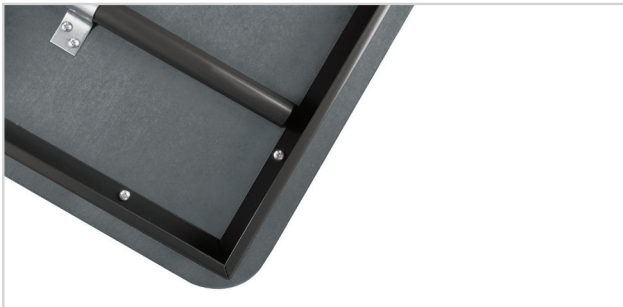

- High pressure laminate surface
- 3/4" thick plywood core top
- 14 gauge, 1.05" diameter wishbone legs
- Spring-bolt locking leg braces

Solid 3/4" thick plywood is surfaced with high pressure plastic laminate, sealed with a backing sheet and edged with vinyl T-molding.

Leg braces incorporate spring loaded, case hardened steel detents for a long life and fast set-up & tear-down.

Tops are reinforced against breakage with a square corner steel frame.

Extra thick, 14 gauge steel leg construction stands up to heavy use without bending. Non-removable, high impact plastic leg glides protect floors.
